				(Must be prorated to end on September 30 - Call for help)		
Product Description	License Part Number	US Navy BPA Pricing for Licenses	License Notes	Maintenance Part Number	US Navy BPA Pricing for Maintenance	Maintenance Notes

The MLA Product Availability and Price List consist of two documents; a text document and a spreadsheet document. Please refer to the text document for additional program ordering information, including program enhancements, product promotions, and new product/service offerings.

Please Note:

As an MLA customer, the primary method of delivery of your software will be through Software Masters which allow you to install and run Novell products. In addition, you will receive a free subscription to the
Novell Software Connection™ Library (NSCL) shipped to the parent location upon enrollment. The NSCL is updated periodically (up to 4 times a year) and is a great tool to see what products are available for purchase.
With the NSCL, you may "test drive" Novell products by installing the contained software for evaluation in your organization. If you would like copies for other sites, you may purchase extra copies for the listed price.
For further information and a list of products currently contained in NSCL, please refer to the NSCL web site at:http://www.novell.com/nscl. This site describes which CDs have been updated since the last release and
contains a search engine to allow customers to search by product name or component.

Novell Software Connection Library Release 7   888-000436-007   **$294.53**

Some products on the NSCL also require serialized Product License Disks to enable the Software. NSCL contains 100 user DEMO license diskettes.
These licenses diskettes can be installed if NSCL is to be used for DEMO purposes. If you choose NSCL as your Software Master
you will need to order Product License Diskette if purchasing any of the following products. The diskettes are $5.00 each.

Novell Web Server™ 3.1
The Novell Web Server 3.1 upgrade for IntranetWare is available for free download from Novell's Internet Web site at http://www.novell.com/novellsw/platform.html.
Novell Web Server 3.1 doubles the performance of Novell Web Server 2.51 which ships with IntranetWare.

Novell Replication Services™ 1.2
Novell Replication Services (NRS) is a replication management tool that allows the selective replication of files, directories or volumes between two or more servers in the same Novell Novell Directory Services (NDS) tree. A NRS license is required for
each server containing replicated data without regard to the number of user licenses.

Novell Replication Services (NRS) 1.2 Software Master	886-013827-001	$74.38				

Node License

Novell Replication Services (NRS) 1.2 Node License	LIC-004801-001	$20.23		MNT-004589-001	$4.17	
Upgrade Novell Replication Services (NRS) 1.2 Node License	LIC-004801-003	$4.17		MNT-004589-001	$4.17	

Note: Novell Replication Services 1.2 nodes must match the number of IntranetWare nodes.

Novell Distributed Printing Services™
Novell Distributed Printing Services (NDPS) is a product designed in partnership with Hewlett Packard Company and Xerox Corporation to allow administrators to utilize built-in printer intelligence that centrally manages network printing resources,
improves network printing performance, and provides reliable network printing. Customers in the United States and Canada may order NDPS by calling Novell's fulfillment office toll free at (800) 395-7135 or faxing (800) 513-2800. Customers
outside of the United States and Canada may order NDPS by calling (510) 463-7391 or faxing (510) 657-1473. The fulfillment office is open from 7:00 a.m. to 5:00 p.m. PST. The suggested retail price for NDPS is $49.95.

IntranetWare Client™ Suite and Windows Integration CD
The IntranetWare Client Suite and Windows Integration CD (part number 132-017578-003) contains tools and applications that integrate Windows NT and Windows 95 clients, Windows NT servers, and applications hosted by Windows NT into Novell networks.
The complete suite of IntranetWare clients including Windows NT, Windows 95, DOS/Windows 3.1x, OS/2, and Macintosh is included on the CD. Customers in North America may order the Integration CD from Novell's fulfillment
house between the hours of 7:00 a.m. and 5:00 p.m. PDT by calling 1 (800) 395-7135. Customers outside of North America may call 1 (510) 463-7391. Customers may also fax their requests to Novell Fulfillment at 1 (800) 513-2800
(North America customers only) or 1 (510) 657-1473. Payment terms must be met by either check or credit card.

IntranetWare Client™ for Windows NT
IntranetWare Client™ for Windows NT is available for free download from Novell's Internet Web site at http://www.novell.com/novellsw/platform.html.
IntranetWare Client for Windows NT is the most full-featured client software available for the Windows NT desktop, offering Windows NT 3.51 and 4.0 workstations complete access to IntranetWare and NetWare services and information,
including Novell Directory Services (NDS).

Netscape Navigator™ 4.0

may download Netscape Navigator 4.0 free-of-charge from Novell's web page at http://www.novell.com/novellsw/platform.html. To successfully download Netscape Navigator 4.0, customers must insert their license certificate number when prompted.
The Novell products bundled with Netscape Navigator include: IntranetWare, IntranetWare for Small Business, WebServer, LAN WorkPlace, LAN WorkGroup, and Novell BorderManager.

Novell BorderManager™

BorderManager is the industry's first integrated family of directory-based network services that manages, secures and accelerates user access to information at every network border--the point where any two networks meet. Through a single point of administration, you can manage network security policies, protect confidential information, establish user access privileges to internet content, and reduces WAN connectivity costs. BorderManager significantly improves intranet and internet access performance and provides a standards-based performance foundation to support your company's network infrastructure.

This product may not be exported outside of the U.S. or Canada without prior authorization from the U.S. Department of Commerce. Financial institutions or subsidiaries of U.S. companies located outside the U.S.A are likely to obtain approval.

Specific approval in the form of a validated export licence must be obtained prior to shipment for all other entities. Please contact your regional representative of Novell Trade Services for more information.

IntranetWare™/NetWare® 4.11 Additive License Pack - 3.5" diskette

Additive license packs may be used to increase the base user level of any NetWare 4.11 or IntranetWare, new or upgrade. Additive license packs require the use of an activation key which must be applied to unlock the license file prior to installation.

Additive license packs are for use on a single NetWare 4.11 or IntranetWare base server license. One or more additive license packs may be added to a given server.

IntranetWare/NetWare 4.11 Additive License Pack -10-user	LIC-004199-001	**$770.53**		MNT-004199-001	**$261.77**

Novell® Upgrade Wizard						
Novell Upgrade Wizard is available for free download from Novell's Internet Web site at http://www.novell.com.						
Novell Upgrade Wizard is an easy-to-use migration tool that allows you to quickly and easily upgrade your existing NetWare 3 infrastructure. The utility makes migrating your NetWare 3 bindery and file system as easy as dragging and dropping						
an object from one location to another. Key features include: Drag and drop modeling capability, ability to migrate both the NetWare 3 bindery and file system in a single GUI utility, password migration functionality, simple print component						
migration, option to establish migrated users' rights based on existing user template, option to create new user templates for migrating users, ability to create new containers and subdirectories in the existing Directory tree, notification						
of possible errors and ability to correct these errors before migration, and progress bar indicating percent completion.						
Novell Upgrade Wizard runs on both Windows 95 and Windows NT workstations.
